Certain statements in this communication related to the Company constitute "forward-looking information" within the meaning of applicable securities laws and are prospective in nature. Forward-looking information is not based on historical facts, but rather on current expectations and projections about future events and are therefore subject to risks and uncertainties which could cause actual

Undue reliance should not be placed on forward-looking information, which are inherently uncertain, are based on estimates and assumptions, and are subject to known and unknown risks and uncertainties (both general and specific) that contribute to the possibility that the future events or circumstances contemplated by the forward-looking statements will not occur. There can be no assurance that the plans, intentions or expectations upon which forward-looking statements are based will in fact be realized. Forward-looking information in this communication includes, but is not limited to, statements regarding the potential benefits and development of the Company’s product candidates, trials, studies and programs; the strengths and benefits of the Company’s strategic plan; the Company’s business plans and objectives; the ability of MindMed to achieve success consistent with management’s expectations; and the expected impact and results of the Company’s corporate governance practices, including of the Company Board’s director nominees.

Although management of the Company considers these assumptions to be reasonable based on information currently available to it, they may prove to be incorrect.

There are numerous risks and uncertainties that could cause actual results and the Company’s plans and objectives to differ materially from those expressed in the forward-looking information, including history of negative cash flows; limited operating history; incurrence of future losses; availability of additional capital; changes in market conditions; lack of product revenue; compliance with laws and regulations; changes in government policy; difficulty associated with research and development; risks associated with clinical trials or studies; heightened regulatory scrutiny; early stage product development; clinical trial risks; regulatory approval processes; novelty of the psychedelic inspired medicines industry; as well as those risk factors discussed or referred to herein and the risks described in the Company’s Annual Report on Form 10-K for the fiscal year ended December 31, 2022 and the Company’s Quarterly Report on Form 10-Q for the fiscal quarter ended March 31, 2023 under headings such as “Special Note Regarding Forward-Looking Statements,” and “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and other filings and furnishings made by the Company with the securities regulatory authorities in all provinces and territories of Canada which are available under the Company’s profile on SEDAR at www.sedar.com and with the U.S. Securities and Exchange Commission (“SEC”) on EDGAR at www.sec.gov.
